ABSTRACT

On 11 February 2020, the WHO declared the Coronavirus disease 2019 (COVID-19) as a new pandemic defined as the illness caused by a novel coronavirus now called severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) which was first identified amid an outbreak of respiratory illness cases in Wuhan City, Hubei Province, China. It has not been previously identified in humans but WHO mentioned the virus, SARS-CoV-2 is transmitted from human to human by hand. The COVID-19 has been spreading rapidly across the world, affecting more than 185 countries. Up to 11 May 2020, over four million people are infected and over one fourth of million individuals around the world have died from the COVID-19. Till now, there is no approved medicine to prevent COVID-19 infection. WHO said, it is one year away to receive COVID-19 vaccine. The above panic situation and global pandemic insists me to consider, it is the Third World War of Divine Creator, Allah by Bio-weapon due to Human's recent activity against the Creator such as modification of the Holy Qur'an, insulting the Prophet Muhammad (peace be upon him), etc. This paper presents the evidence of the involvement of Divine Creator in this pandemic, and the transmission of COVID-19 by human hand is simulated with the Divine Creator's Code "19". Based on the simulation, a probable treatment process is proposed to immediate relief of mankind from COVID-19. Again, evaluated by Divine Creator's Code 19, it is suggested that the vaccine mRNA-1273, developed at the biotechnology company Moderna in Massachusetts, could be applicable (2-dose schedule at Day 57) to prevent infection with SARS-CoV-2 causes the disease COVID-19 but it is taking time for testing of safe and effectiveness which is going on in the National Institute of Allergy and Infectious Diseases Research Center in the United States of America.

1 Introduction

The new deadly coronavirus, severe acute respiratory syndrome coronavirus 2019 (SARS-CoV-2) provisionally named 2019 novel coronavirus (2019-nCoV) that emerged in Wuhan, China, has continued to spread over the world. According to the WHO, more than 4,006,257 peoples are infected and 278,892 individuals have died from the coronavirus diseases 2019 (COVID-19), till 11 May, 2020, over the world [1]. For the same time, Johns Hopkins Center reported that globally 4,226,981 people infected and 285,252 peoples have died from the coronavirus diseases 2019 (COVID-19) [2]. All scientists are

scrambling to find out its origins, hosts, medicine or vaccine for treatment, and so on. But till now, exactly no treatment process is developed.

Many coronaviruses are zoonotic diseases, originated in wild animals spread to humans. Coronaviruses have been identified in several avian hosts [3]-[5] as well as in various mammals, including bats, masked palm civets, pangolins, snakes, mice, dogs, pig, and cats. In the case of 2019-nCoV, experts think the virus first infected people at the Huanan Seafood Wholesale Market, where live animals were sold.

Several studies have reported that bats were the original hosts of Ebola, SARS, Middle Eastern respiratory syndrome (MERS), and probably this coronavirus (2019-nCoV) outbreak as well [5]. They pass diseases to other species via their poop or saliva, and the unwitting intermediaries can transmit the virus to humans in the same way, then from human to human.

It has been reported [6] that 2019-nCoV is closely related (with 88% identity) to two bat-derived severe acute respiratory syndrome (SARS-CoV)-like corona-viruses, was genetically distinct from SARS-CoV-2. Due to the similar receptor-binding domain structure of 2019-nCoV to that of SARS-CoV-2, bats might be consider the original host of this virus, an animal sold at the seafood market in Wuhan might represent an intermediate host facilitating the emergence of the virus in humans [6].

Genetic research has all but confirmed that the new coronavirus spreading in China - called nCoV-2019, originally came from bats [7]. Although the coronavirus is thought to have originated in bats, this doesn't mean it was directly passed from bats to humans.

According to a statement from the Johns Hopkins Center for Health Security, "Direct transmission of CoVs from bats to people is also theoretically possible" but Guizhen Wu [6], stated that in this case another animal host is acting as an intermediate host between bats and humans. Recently, different studies have reported that the Wuhan coronavirus is originated in bats but bats may have passed the virus to snakes [8] or pangolins [9] in the wild, which then passed it to humans of the wet market.

Finally, several studies [9]-[11] confirmed that the pangolins acted as an intermediate host to transfer coronaviruses (2019 nCoV) from bats to humans in Wahan, like as the transfer of SARS-CoV-2 related coronaviruses in Malayan pangolins (*Manis javanica*) seized in anti-smuggling operations in southern China. That means, before reaching humans, the virus was likely passed from bats to the pangolin, the most illegally traded animal in the world, available in China, and then passed it to humans to human. At last the new novel coronaviruses (2019-nCoV) is named as SARS-CoV-2 and its physical structure is presented in Figures 1, collected from National Institute of Allergy and Infectious Diseases, NIH, USA. Figure 1(a) is the scanning electron micrograph of novel coronavirus SARS-CoV-2 particle identified as the cause of an outbreak of respiratory illness known as coronavirus disease 2019 (COVID-19), first detected in Wuhan, China in 2019 [12] and Figure 1(b) is the transmission electron micrograph of novel Coronavirus, SARS-CoV-2 particles, isolated from a patient [13]. Figure 1(a) shows that there are three proteins on the surface of spherical body of the SARS-CoV-2 viruses: envelope protein (E-protein; yellow), spike protein (S-protein; red) and membrane protein (M-protein; redish yellow), which encapsulate a strand of RNA [12]. The virus SARS-CoV-2 uses the spike proteins adorning its outer surface to invade the human cells and causes the disease COVID-19. The gene for the spike protein in SARS-CoV-2 has an insertion of 12 genetic letters: *ccucggcgggca*. This mutation may help the spikes bind tightly to human cells [12]. The

virus is spreading rapidly in many countries and the global pandemic continues to grow up. The world map (2A) and a population vs time graph (2B) shown in Figures 2 to understand what is going on [1], [2].

2 Investigation and Observations

2.1 Divine Creator's Code 19

Hands are very useful parts of our body. These are designed by the Divine Creator including a wonderful mechanism, which is investigated in this article. From the knowledge of medical science, we knew each hand is arranged by 19 bones (4×4+3×1) and another 8 bones are keeping to making the basement of each hand as shown in Figure 3 [14]. The arrangement of each hand with 19 bones make a structure like as the structure of the Arabic word Allah (ٱللَّهِ), the name of Divine Creator as shown in same Figure 3, as published elsewhere [15], [16]. In my present investigation, again I found that there are 19 marks on the front side of all fingers in each hand which we are using for counting as shown blue marks in Figure 4. This number "19" is very significant to the Divine Creator as it is the basic number for the arrangement, protection, authentication of the Holy Qur'an, the final revelation to mankind from God (Allah), is the central religious text of Islam [17].

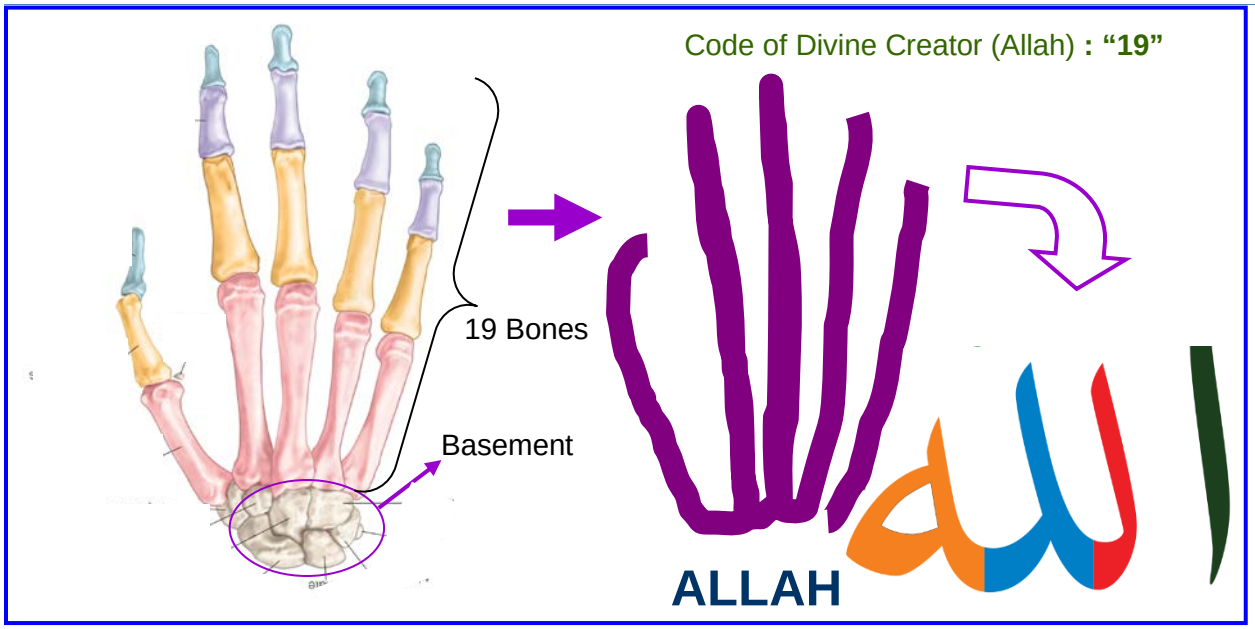

Figure 3. Arrangement of Human hand based on the Divine Creator's Code "19" and its structure is like as the structure of the Arabic word Allah (اللّٰه), name of the Divine Creator

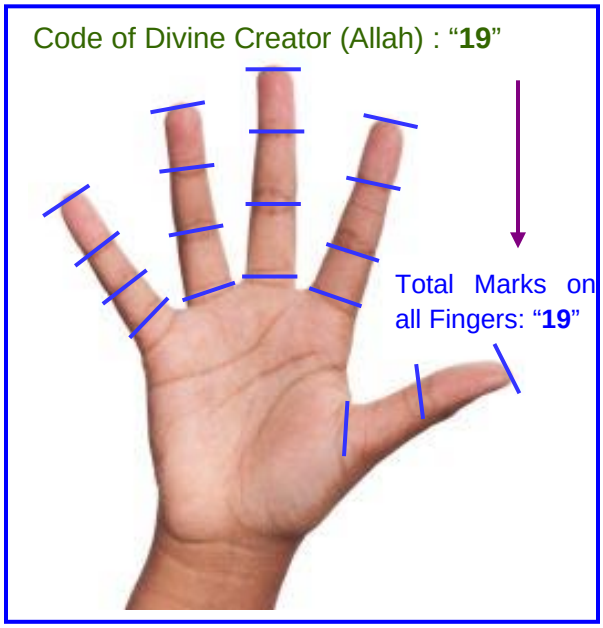

Figure 4. Marking on the fingers of Human hand based on the Divine Creator's Code "19"

An intricate mathematical interlocking system has been introduced in the Holy Qur'an to protect it from any kind of tampering. No man can be able to add, delete or interpolate a word to this complete text and that system has been based on the numeral of 19.

In the Holy Qur'an, number of chapter (surahs), verses, words, and letters are arranged on the numeral of "19" [18]. Since the physical construction of the Holy Qur'an is purely mathematical coding, it would be expected that the numbers mentioned in the Holy Qur'an must conform to the Holy Qur'an's 19-based code. For example, when if add the numbers of all surahs, plus the number of verses in every surah, plus

the sum of verse numbers, the Grand total for the whole Qur'an comes to 3,46,199 which is the multiple of 19 (19×19×959). Thus, the slightest alteration of a single surah or verse would have destroyed this system. Only a few unauthorized and easily detectable printings deviate from the standard system that is divinely guarded [18].

Not only that, the opening statement of the Holy Qur'an: بِسْمِ ٱللَّهِ ٱلرَّحْمَٰنِ ٱلرَّحِيمِ (*Bismillahir Rahmanir Raheem, in short "Bismillah"*), consists of 19 letters, meaning is "In the name of Allah (God), the Most Gracious, the Most Merciful" which is the Guard and authentication seal of the Holy Qur'an. This statement is introduced 114 (19×6) times in the Holy Qur'an at the beginning of all of 114 Surahs (Chapter), except in Surah At-Taubah (Chapter 9), but compensated it by two times included the statement in Surah An-Naml (Chapter 27 and Part 19) - one is at the beginning and another is in the verse 29.

Again, the dominant message of the Holy Qur'an is that there is only "One God." The word "ONE," in Arabic "واحد *Wahed*" occurs in the Holy Qur'an 19 times refers to God (Allah). In Arabic languages, their letters have given a certain traditional numerical value, known as Gematrical value. The Gematrical value of the word واحد is (و = 6, ا = 1, ح = 8, and د = 4) 19. That means the common denominator, 19, of the Holy Qur'an happens to be the gematrical value of the word "ONE." It is understandable that the universal coding of God's in creations with the number 19 rests in the fact that it is the gematrical value of the word "ONE" واحد in Arabic language. The number 19, therefore, pro-claims the First Commandment in all the scriptures: that there is only ONE God (Allah) [18].

Nineteen has no denominators. It is a prime number of mathematics, and it is also a unique number because it begins with 1, the lowest numeral of our mathematical system and ends with 9, the highest numeral of mathematical system. The number "19" possesses unique mathematical properties such as, 19 is the sum of the first powers of 9 and 10 (9+10), and the difference between the second powers of 9 and 10 (10^2-9^2). The difference of two numbers 9 and 10 is ONE which is the internal fact of the Divine Creator's miraculous number of 19, the one-ness of God (Allah). The number 19 can be looked upon as the Almighty Creator's signature on everything He created and marked as the Divine Creator's Code "19".

Thus 19 marks on the front of Human Hand (each), and 19 bones required to making the Human Hand (each); both are the Code of Divine Creator "19". And the structure of the Human Hand represents the name of ONE Allah (God) as presented in Figures 3-4.

Again, in my observation there are also some other marks on the palm of each hand shown by pink marks in Figure 5, which represent some Arabic numbers; in the left hand marks are ٨١ (81) and in the right hand marks are ١٨ (18). Sum of these two numbers (81+18) become to 99 which are the adjective names of Divine Creator, excluding the basic name "Allah", mentioned in the Holy Qur'an.

Thus the human hands represent the authentic sign of Divine Creator, Allah. In the present case, the transmission of coronavirus disease 2019 (COVID-19) by human hand is the direct evidence of the job (spreads) performing by the Divine Creator, Allah. But, Why?

3 Reason of the Transmission of COVID-19 by Divine Creator (Allah)

There is no doubt; Human being is the top most creation of the whole universe. To preserve Human's superiority, Divine Creator, Allah sends Prophets and Holy Books to the mankind in day by day. The

Muslims believe that Prophet Muhammad (peace be upon him, PBUH) is the last messenger, and the Qur'an is the last Holy Book from Divine Creator, Allah to all mankind. According

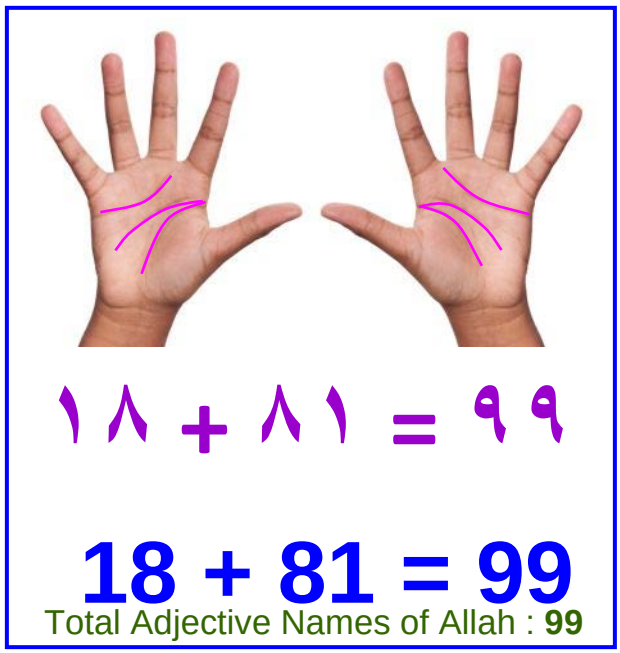

Figure 5. Special marking on the palm of each hand of Human, represent s two numbers of 18 (right hand) and 81 (left hand) which sum is 99, total adjective names of Divine Creator, Allah

to the Holy Qur'an [19] -

* "Indeed, the religion in the sight of Allah is Islam. And those who were given the Scripture did not differ except after knowledge had come to them - out of jealous animosity between themselves. And whoever disbelieves in the verses of Allah, then indeed, Allah is swift in [taking] account"- *(Quran 3:19; Surah Al-Imran, Ayet 19).*

* *"*And indeed, the Qur'an is the revelation of the Lord of the worlds. The Trustworthy Spirit has brought it down. Upon your heart, [O Muhammad] - that you may be of the warners*"* - *(Quran 26:192-194; Surah Ash-Shuara, Ayet 192-194).*

***** "*Indeed, it is We who sent down the Qur'an and indeed, We will be its guardian*" – (Qur'an 15: 09; Surah Al- Hijr, Ayet 09).

***** "*This is the Book [Qur'an] about which there is no doubt, a guidance for those conscious of Allah*" – (Qur'an 2:2; Surah Al-Baqarah, Ayet 2).

* "Indeed, it is a noble Qur'an. In a Register well-protected; None touch it except the purified. [It is] a revelation from the Lord of the worlds" *(Qur'an 56:77-80; Surah Al-Waqiah, Ayet 77-80)*.

* "It is He (God) who sent His Messenger with guidance and the religion of truth to manifest it over all religion. And sufficient is Allah as Witness*"- (Qur'an 48:28; Surah Al-Fath, Ayet 28).*

* "….This day I [Allah] have perfected for you your religion and completed My favor upon you and have approved for you Islam as religion…."- *(Qur'an 5:3; Surah Al-Maidah, Ayet 03).*

* "Nor does he [Muhammad] speak from [his own] inclination. It is not but a revelation revealed"- *(Qur'an 53:3-4; Surah An-Najm, Ayet 3-4).*

In the above verses of the Holy Qur'an, Divine Creator, Allah clarified about the correctness and truthfulness of the Holy Qur'an, and the religion is only the "Islam". The preservation and guardian of the Holy Qur'an is Almighty Allah himself also declared. The reliability and honor of Prophet Muhammad's (PBUH) are also mentioned in the above verses. So, the attempts to take "any change in the Holy Qur'an" and dishonor to Prophet Muhammad (PBUH) would not be a wise decision for any mankind.

But in the Basilica of San Petronio, the main church of Bologna, Italy contains a 15th-century fresco, painted by Giovanni da Modena, represents a depicts "Prophet Muhammad (PBUH) in Hell being devoured by demons" which is insulting to Islam [20]. Thus in June, 2001 Italy's Muslims demanded to removal or destruct the 'insulting' fresco from the church of Bologna [21]. But Italian authority did not allow the demand; moreover they arrested some Muslims, and made cartoon on it and displayed in Italy [22]. In addition newspapers of some other countries in Europe like France, Germany, Spain, Norway, Denmark, Netherland, etc are displayed some insulting cartoons of the Prophet Muhammad (PBUH) [23], [24]. The authorities of the above countries also supported such type of insulting activities. Whereas God (Allah) stated in the Holy Qur'an [19], -

- "Indeed, those who abuse Allah and His Messenger - Allah has cursed them in this world and the Hereafter and prepared for them a humiliating punishment" – *(Quran 33:57; Surah Al-Ahzab, Ayet 57).*

On the other hand, the authority of French, on 21 April 2018, made a shocking demand that some verses in the Holy Qur'an incite anti-Semitism and need to change/delete the verses in the Holy Qur'an [25]. But the reactions vary from peoples around the world and stop the movement to change the Holy Qur'an [25].

Again, the Chinese authorities shown discriminatory policies by increasing the repression against Uighur Muslims in the Western region of Xinjiang, China, in late 2016 [26]. After breaking many Mosques in China [27]-[31], at the beginning of September 2018, the Chinese authorities were confiscating prayer mats and copies of the Qur'an to erase Islamic identity from the soil of Xinjiang [26], [28]. Simultaneously, Last few decays, several mosques have been breakdown in India [32], [33]. Muslims are unable to overcome such harassment and insulting of Islam due to some Muslim leaders have lack of unity, ability and weak in Iman (faith).

Finally, on 17 November 2019, the Chinese authority passed a law to "change the Holy Qur'an", and started their activities [26], [34]-[45]. Figure 6 shows the starting of the re-writing of the Holy Qur'an and other religious books [44]. Under these circumstances, since Allah (God) has promised (Qur'an 15:09) to protect the Holy Qur'an, on the same day (17 November 2019) [46], [47], Divine Creator, Allah has started His war against the above authorities and their followers of the mankind, by a very small micro-organism, Corona virus (SARS-CoV-2), size of 70-90 nm in diameter [48], to show His (God) power, where all money, power and weapons of the world (bombs, missiles, aircraft, etc.) becoming useless. It is a rapid action of Allah (God) as a guardian of the Holy Qur'an. Because Allah (God) stated in the Holy Qur'an about His action in the following verses [19]-

* "But as for those who disbelieved and denied Our verses and the meeting of the Hereafter, those will be brought into the punishment [to remain]"- *(Qur'an 30:16; Surah Ar-Rum, Ayet 16).*

* "Corruption has appeared throughout the land and sea by [reason of] what the hands of people have earned so He may let them taste part of [the consequence of] what they have done that perhaps they will return [to righteousness]"- *(Quran 30:41; Surah Ar-Rum, Ayet 41).*

* *"About the criminals, [And asking them], "What put you into Saqar (strong punishment place)?" They will say, "We were not of those who prayed, Nor did we used to feed the poor. And we used to enter into vain discourse with those who engaged [in it], And we used to deny the Day of*

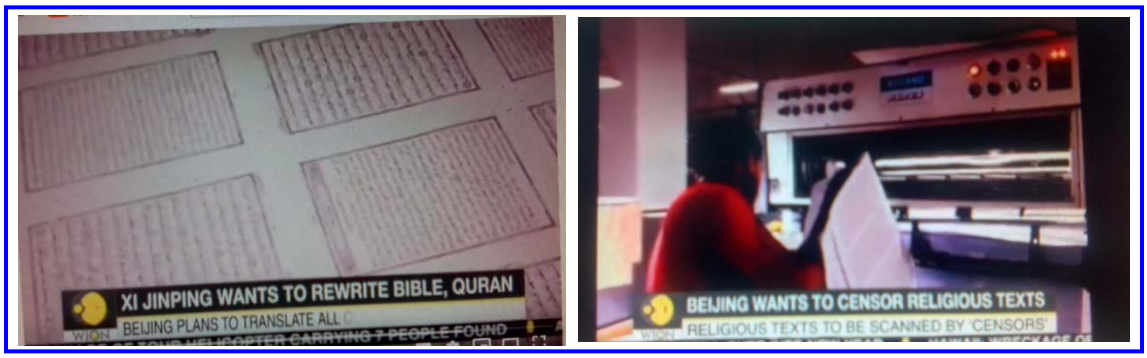

Figure 6. The Chinese authority has started to re-writing the Holy Qur'an and other religious texts [43]

Recompense. Until there came (death) to us the certainty"-(Quran 74:41-47; Surah Al-Muddaththir, Ayet 41-47).

* *'…. I will drive him into Saqar. And what can make you know what is Saqar? It lets nothing remain and leaves nothing [unburned], Blackening the skins. Over it are nineteen [angels]*"- (Quran 74:26-30; Surah Al-Muddaththir, Ayet 09-30).

In the Holy Qur'an, Surah Al-Muddaththir (chapter 74), verse 30 "*Over it are nineteen"* is referring to al'Saqar, a level or state of Hell meant for the punishment and torture. So the number "19" is also the punishment-inflicting angels in Hell. It is hoped that the punishment from each angel will be averted by the blessing of every letter of 19 in the opening verse: بسم الله الرحمن الرحيم (Bismillahir Rahmanir Raheem, in short Bismillah). Thus the opening verse of 19 letters as the Guard of the Holy Qur'an, described previously, act as micro-weapons: coronavirus, "SARS-CoV-2" from Divine Creator against the mankind for changing the Holy Qur'an. So, it can be attributed that the Allah (God) sent the coronavirus (2019-nCoV or SARS-CoV-2) from the bats, traditional symbols of good luck and happiness of Chinese [49], [50], through pangolins [9]-[11]. The action of "Bismillah" as a coronavirus, "SARS-CoV-2" causes the disease COVID-19, expands in the numeral of 19!, and spreading it by Human hand to hand as a sign of Divine Creator (Allah), discussed previously, leading to the pandemic over the world. This fact can be presented in Figure 7, where the opening verse of the Holy Qur'an is given in monogram form; transformed into coronavirus, "SARS-CoV-2" due to the attempted to change in the Holy Qur'an. The coronavirus, "SARS-CoV-2 has several similarities with the "Bismillah …." the guard of the Holy Qur'an. Such as the "Bismillah ….", the opening verse of the Holy Qur'an contained four words: بسم (Name), الله (Allah, God), الرحمن (the

Most Gracious) and الرحيم (the Most Merciful); one is the base (Name) and other three are the names of Divine Creator's (one

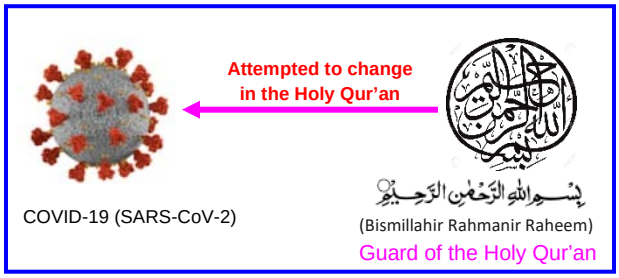

Figure 7. Transformation of the Code of Divine Creator '19" into COVID-19 as an action of the Change in the Holy Qur'an

is original name, Allah, and other two are the adjective names of Allah). These four words exist in the Holy Qur'an in the numeral of 19: بسم - 19 times (19×1), الله - 2698 times (19×142), الرحمن - 57 times (19×3) and الرحيم - 114 times (19×6) [17]. In case of the coronavirus, SARS-CoV-2, described in Figure 1(a), it has shown that spherical particle as a base contained three proteins (like as the three names of Creator's in "Bismillah ….") where one protein (spike protein, like as the basic name of God, Allah in "Bismillah ….") invades the human cells leading to the COVID-19.

Actually, the initiation of coronavirus, SARS-CoV-2 from bats and its propagation in mankind by human hand to hand [1] is the action of ONE God, Allah for attempted to changing in the Holy Qur'an, described previously. Incidentally, the symbol of the coronavirus disease 2019 (COVID-19), named by WHO, is similar to the Divine Creator Code '19". At present, the spreading of the COVID-19 has become a global pandemic. Lots of peoples have cases and died. Most of the affected areas are China, Europe, America, Russia, and some other countries are given in Table 1 to realize the actual situation [2].

4 Treatment of COVID-19 Pandemic

In Islam, the Holy Quran is considered divinely revealed; because it's deemed to be the word of God (Allah), altering or deleting any part of the text would be blasphemous. As revealed it will preserved until the end of the world. Anti-Semitism is an ideology of hatred which exists in China, Europe and some other countries. Those can not be solved by changing the Holy Quran; moreover it made a strong pandemic in worldwide. None can control the globally spreading of coronavirus disease 2019. Currently, there is no approved vaccine to prevent COVID-19 infection. Chief of the Emergency Health Programmed of WHO, Dr Michael Ryan said on 22 March 2020, Coronavirus vaccine "at least" a year away but people need to continue their efforts to stop the spread [51].

Since the situation aroused by the Human activities against the Divine Creator, Allah and He proceed it pandemically, discussed above sections, it is wise to emerge help from the Divine Creator, Allah to immediate protect mankind from the COVID-19 pandemic. The Divine Creator, Allah stated in the Holy Qur'an [19], -

* "Indeed, to Allah belongs the dominion of the heavens and the earth; He gives life and causes death. And you have not besides Allah any protector or any helper"- *(Quran 9:116; Surah At-Tawbah, Ayet 116).*

* "And if any one of the polytheists seeks your protection, then grant him protection so that he may hear the words of Allah. Then deliver him to his place of safety. That is because they are a people who do not know"- *(Quran 9:6; Surah At-Tawbah, Ayet 6).*

* "Indeed, Allah and His angels send blessings on the Prophet, O you who believe! Send upon him blessings and salute him fully well in abundance"– *(Quran 33:56; Surah Al-Ahzab, Ayet 56) [19], [52].*

* "And if, when they wronged themselves, they had come to you, [O Muhammad], and asked forgiveness of Allah and the Messenger had asked forgiveness for them, they would have found Allah Accepting of repentance and Merciful"- *(Quran 4:64; Surah AnNisa, Ayet 64).*

According to the above verses, Allah (God) will help us if we properly apologize to Allah and His Messenger, and remember with the Code of Divine Creator '19' in the following ways:

1. Stop the attempted to changing the Holy Qur'an and any other activities against Islam
2. Surrender and Apologize to Divine Creator (Allah)
3. Destruct the 'insulting' fresco of Prophet Muhammad (peace be upon him) from the Basilica of San Petronio church in Italy and its related cartoons in any places

4. Apologize and properly honor/love to Prophet Muhammad (peace be upon him)
5. Remember to God (Allah) by read 786 times ": بسم الله الرحمن الرحيم (Bismillahir Rahmanir Raheem)" in everyday at dawn or/and dusk
6. Honor to Prophet Muhammad (peace be upon him) by read 111 times Durood shareef:

   الصلوة والسلام و عليک يا رسول الله

   (Assalat o wassalam o alieka ya Rasool Allah; meaning is Prayer and peace be upon you, the Messenger of Allah) in everyday at dawn or/and dusk
7. Avoid to eating the prohibited food by Islamic religion like wild animals such as fig, dog, rabbit, snake, tiger, horse, insects, etc.
8. Properly follow the Islam as the only religion.

NB: * The Gematrical value of "Bismillahir Rahmanir Raheem" is 786.

* The Gematrical value of "Muhammad" + number of Letters in "Bismillahir Rahmanir Raheem" is (92+19) equals to 111.

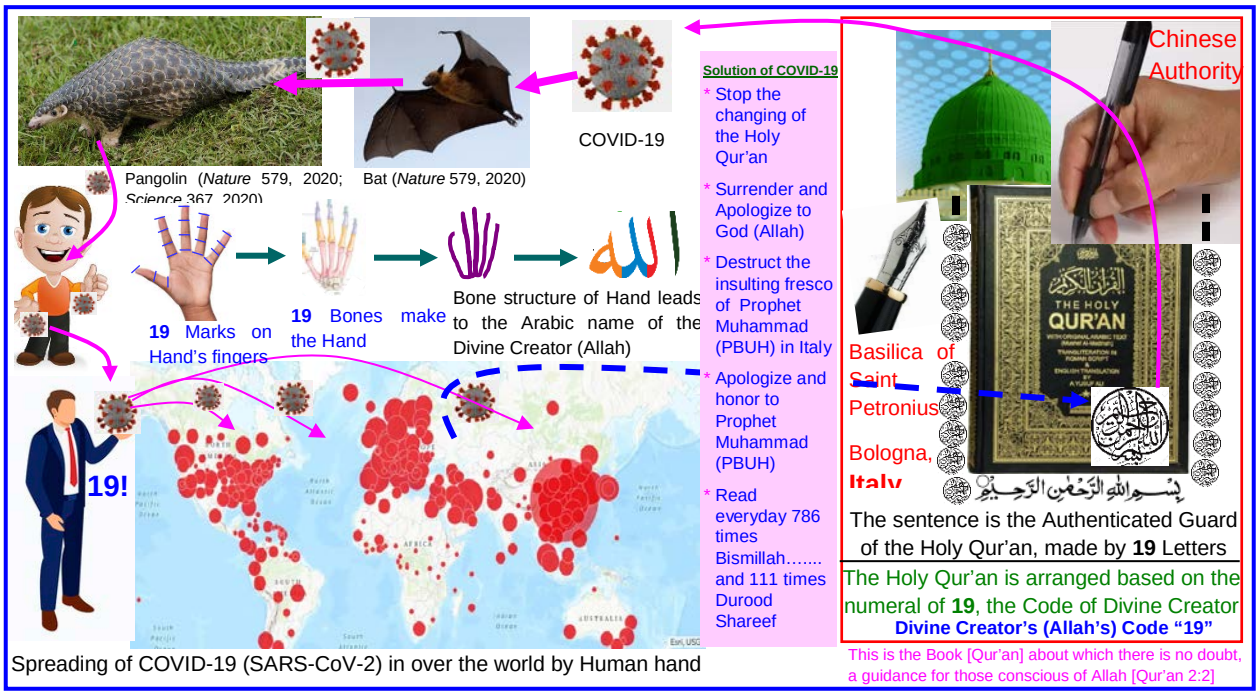

Figure 8. A schematic presentation of the cause and solution for the global spreading of Coronavirus Diseases- 2019 (COVID-19) – a pandemic

Since each and every word of the Divine Creator's in the Holy Qur'an is true, it could be relief from the COVID-19 pandemic by the Grace of Allah and the love of Prophet Muhammad (peace be upon him). A summery of the study is schematically presented in Figure 8**.**

On the development of modern science, we can prove many verses in the Holy Qur'an. For example, in the Holy Qur'an 95:4, Allah says *"We have certainly created man in the best of stature".* Recent development in medical science showed that "*man in the best of stature*" means the structure of human

body is the combine structures of Arabic words Allah and Muhammad which is the combination of the name of Divine Creator and His Messenger leading to the best stature [15-16]. Again, Allah stated in the Holy Qur'an 24:35, "*Earth and Sky is the light of Allah".* After the establishment of the "Special Theory of Relativity" and Quantum Theory, it is proved that "Everything of the universe is made of light" [53], [54]. So, we need to realize ourselves to understand the universe as well as the Divine Creator, Allah. No mankind can exist in the universe without the two names: Allah and Muhammad (PBUH); everyone should be trust into these two names: Allah and Muhammad (PBUH). This is the envoy of peace to the whole mankind of the universe.

It is noted that the vaccine mRNA-1273 (Messenger Ribonucleic Acid-1273), developed at the biotechnology company Moderna in Massachusetts, against COVID-19 is testing on to verify the safe and effectiveness in the National Institute of Allergy and Infectious Diseases Research Center in the United States of America [55]-[57]. From the view point of Divine Creator's Code 19, it could be suggested that the "2-dose vaccination schedule of mRNA-1273 at Day 57" (1273=19×67 and 57=19×3) as the secondary objective of that investigation would be applicable to prevent infection with SARS-CoV-2 causes the disease COVID-19 but it is taking time for complete the test and come to the market.

5 Conclusion

The coronavirus, SARS-CoV-2 (2019-nCoV) causes the disease COVID-19 is originated from bats and transfer to human through pangolins in a wet market of Wuhan, China, and spreading over the world by mainly human hand. This virus, SARS-CoV-2 is initiated by the action of the Divine Creator, Allah to the human due to the attempted to "change in the Holy Qur'an" and the insulting of His Prophet Muhammad (peace be upon him). According to the statement of God (Allah), the Holy Qur'an is an un-doubtful Book reveled from Him, which is arranged, protected, and authenticated by a unique number "19", known as the Divine Creator Code. The opening verse of the Holy Qur'an, made by 19 letters act as the guard of the Book, which is transformed as micro-weapons against the human, causes the disease COVID-19, and propagated over the world by the human hand as the Divine Creator Code 19, leading to the global pandemic. It can be controlled by the stop of the changing of the Holy Qur'an, destruct the 'insulting' fresco and cartoons of Prophet Muhammad (peace be upon him), properly apologize and love to God (Allah) and His Messenger, remember Them by reading 786 times "*Bismillahir Rahmanir Raheem*"and 111 times "*Assalat o wassalam o alieka ya Rasool Allah*", and avoid to eating the prohibited food by Islamic religion like as wild animals, insects, etc.

ACKNOWLEDGEMENTS

The author is grateful to the Divine Creator, Allah and His Messenger Prophet Muhammad (peace be upon him) for given him the opportunity to come to the earth and write the article. The author is thankful to Sheikh Shahzada Professor Dr. Ahmed Peyara Bagdadi (R), Shahpur Dargah Sharif, Cumilla, Bangladesh for his kind inspired to perform such work. The author wishes to acknowledge to the Centers for Disease Control and Prevention (CDC), Department of Health and Human Services, U.S.A for their unrestricted SEM and TEM micrographs of novel coronavirus SARS-CoV-2 (2019-nCoV) available to use in this article. The author also thankful to the Chemistry Department as well as the Authority of the University of Dhaka, Bangladesh. Finally, the author extends his thanks to his parents, wife Mrs. Shahzadi Rof Rof Peyaree,

and his daughters: Shadita, Sakira, Sakura and Syidah for their support, suffering and understanding during the preparation of the manuscript.
