

Scientific Consensus: JFK's Homicide by a Coup D'etat

Alen J Salerian

George Washington University

Abstract: This short communication offers a new paradigm to suggest American Democracy is dependent on presidential integrity with unchecked powers of presidency can trigger catastrophic outcome consistent with Quorum Sensing, Planck, Chaos and probability theories: Objective: To demonstrate the sensitive dependence of American democracy on presidential integrity. Method: Review of JFK assassination records to project the odds of total dependence of democracy on presidential integrity consistent with the probability theory. Results: 15 independent observations are consistent with the toxic influence of presidential misrepresentations disabling democracy. Odds of certainty of this conclusion to be accurate is % 99.999. Discussion: American Democracy seems to be sensitively dependent on presidential integrity whereby unchecked powers of presidency of minimum energy can trigger catastrophic outcome consistent with Quorum Sensing, Planck, Chaos and probability theories. Research by a distinguished group of JFK scholars suggests treason by LBJ's unchecked executive powers toppled JFK's White House by a military takeover launching the Vietnam war. Mantik proved the surgical brain alterations by BNH pathologists at JFK's autopsy. Further provable evidence of a Coup D'etat would show the fraudulence of the Warren report and Oswald's innocence (table A). Conclusion: A Coup D'etat led by LBJ killed JFK, RFK, MLK, Oswald, Ruby, Kilgallen, Lennon to launch the Vietnam war. American democracy would benefit from evidence based textbooks and museums.

HIGHLIGHTS

- American Democracy is sensitively dependent on presidential integrity.
- Less than perfect presidential integrity with minimum energy may trigger catastrophic outcome consistent with Quorum Sensing, Planck, Lorenz and probability theories. Odds of certainty of this conclusion to be accurate is % 99.999.
- Presidential misrepresentations have disabled democracy.
- Treason by LBJ's unchecked executive powers toppled JFK's White House by a military takeover launching the Vietnam war.

INTRODUCTION

This short communication offers a new paradigm to suggest American Democracy is dependent on presidential integrity whereby unchecked powers of presidency can trigger catastrophic outcome consistent with Quorum Sensing, Planck & Lorenz and probability theories:

Quorum Sensing QR is a process of bacterium -bacterium communication of collective performance. For instance, translucency "to light-up a group of microorganisms requires minimum energy of a group (1,2).

Max Planck discovered that radiation is not a steady flow like sound or light, emitted systems on initial and absorbed in tiny, discrete packets called quanta of minimum energy (3).

Ed Lorenz proved the sensitive dependence of complex systems vulnerable to catastrophic outcome by initial conditions (4).

OBJECTIVE

To demonstrate the sensitive dependence of American democracy on presidential integrity.

METHOD

Review of JFK assassination records to project the odds consistent with the probability theory of total dependence of democracy on presidential integrity.

We reviewed JFK assassination data including the Warren report, David Mantik, JFK was Killed by consensus. Daily Plaza was just a final stop. Trine Day 126,

Fetzer JH, Palecek M, JFK Who How and Why, Page 351, Moon Rock Books, 2017,

Salerian AJ, War and genocide triggered by initial presidential misrepresentation MCONSISTENT with the butterfly effect of Chaos theory. European Journal of Pharmaceutical and Medical Research, 2026.13(7), Rivera L The JFK Horsemen. The JFKS Horsemen, Moon Rock Books 2018, Salerian AJ, (2023) What caused president Kennedy's throat wound? EJPMR, Salerian AJ, Intelligent Homicides of Six Thought Leaders: Forensic and Mathematical Analysis Vol. 14 No. 01 (2026): European Journal of Applied Sciences, Report of the President's Commission on the Assassination of President Kennedy. 1964. Chapter 1 Summary and Conclusions. 1964 Washington DC United States, Government printing office, 1 volume, 888 pages.

Horne D, Inside the assassination records review board. The US government's final attempt to reconcile the conflicting medical evidence in the assassination of JFK 2009.

We applied the probability theory to 15 independent observations consistent with a Coup D'état and inconsistent with a null hypothesis.

RESULTS

15 independent observations are consistent with the toxic influence of presidential misrepresentations disabling democracy. Odds of certainty of this conclusion to be accurate is % 99.999.

DISCUSSION

Physical and biological laws may illuminate the complexities of the coup d'état of 11/22/1963.

Complex systems seem to have a sensitive dependence on initial minimum energy consistent with Planck radiation law, Lorenz butterfly effect chaos theory and Hasting's

quorum sensing theories. In essence the sensitive dependence of complex systems on initial minimum energy seems to be a universal law.

A new paradigm for American Democracy suggests unchecked powers of presidency with minimum energy can trigger catastrophic outcome validated by mathematics. In essence there is no room for minor presidential errors. Odds of certainty of this conclusion to be accurate is % 99.999.

Documented meticulously by David Mantik PH.D, M.D. in "JFK's death was a consensus", further substantiated by forensic and mathematical evidence, suggests treason by LBJ's unchecked executive powers toppled JFK's White House by a military takeover launching the Vietnam war.

Fetzer / Mantik's gift to democracy is brilliant research demonstrating that the highest levels of the executive branch were the masterminds of the Coup D'etat involved in the surgical brain alterations by BNH pathologists at JFK's autopsy. See Table A for further provable evidence of a Coup D'etat. Odds of certainty of this conclusion to be accurate is % 99.999. American democracy would benefit from evidence based text books and museums.

CONCLUSION

A Coup D'etat led by LBJ killed JFK, RFK, MLK, Oswald, Ruby, Kilgallen, Lennon to launch the Vietnam war. American democracy would benefit from evidence based text books and museums.

Table B: Emission of Sound ,Smell, Light ,Radiation

- Sound: steady flow
- Light: steady flow
- Radiation: step by step with minimum energy necessary for transmission.
- Bacteria-bacteria: quorum sensing; step by step with minimum energy necessary for translucency.

Table C: Sensitive Dependence of Democracy on Presidential Integrity

- Quorum sensing: Translucency, to light-up a group of microorganisms requires minimum energy. QR is a process of bacterium -bacterium communication of collective performance.
- Radiation: Emission: step by step, increments with minimum energy. Every physical body continuously emits radiation with the higher the temperature of a body the more radiation the emitted spectrum shifts to shorter wavelengths.
- Lorenz Butterfly effect theory: A complex system is determined by initial conditions whereby minor early mishaps may lead to catastrophic outcome.
- American Democracy: Is sensitively dependent on presidential integrity. A chain of unmitigated failures of less than perfect presidential integrity with minimum energy may trigger catastrophic outcome.
